

# BC600

## Portable 1D/2D Barcode Reader

**ExpoTool's BC600.**

**Easy to use,  
with long battery life.**

## FEATURES

Compact, portable barcode scanner allows easy badge scanning

Latest technology in imaging recognizes most 1D & 2D symbologies

Graphic LCD display to verify scanned data

Thumbwheel user interface to enter additional data

Wireless connection to ExpoTools portable printer or laptop\*\*

Realtime delivery of scans to the web++

Built-in rechargeable lithium battery, charged from USB port or charging station

Stores up to 3,500 scans

All scans are date & time stamped

Fully compatible with other ExpoTools equipment

\*\* Wireless connection to laptop requires ExpoTools' Sidekick

++ Using ExpoTools' Direct Access

The BC600 is a compact, portable barcode reader that simplifies the process of badge scanning for lead retrieval or session tracking. The BC600 is capable of reading multiple 1D & 2D barcode symbologies so it can easily adapt to existing badge creation systems. Each scan is displayed on the graphic LCD screen and stored in memory along with the time, date and any selected qualifiers.

The BC600 can be easily pre-programmed with custom qualifiers such as "decision maker" or "will buy in 6 months" to increase the value of the data captured about the customer. After scanning the badge, the exhibitor can quickly and easily select the correct qualifiers by using the thumbwheel.

For a more comprehensive solution, ExpoTools' Direct Access Points can be used to enable web access and two-way communication with the BC600. Scanned data can be sent directly to the Internet so exhibitors can access their leads in real time and they can request assistance from the service desk without leaving their booths. In addition, Direct Access Points make it possible for staff to broadcast messages to scanners and proactively monitor scan activity to identify any problems.

The BC600 can be connected to an optional portable thermal printer so exhibitors can roam the booth and still print their leads on paper. Or, each reader can be linked wirelessly to a computer with the optional SideKick device for instantaneous access to the scanned data or integration with the exhibitor's CRM system.

The BC600s are shipped in rugged, compact cases that each hold 15, 30 or 40 units for ease of handling and reduced shipping costs. These specially-designed cases also serve as charging stations with an individual charging connection for each reader.

## BC600

## Portable 1D/2D Barcode Reader

<b>Battery</b>	Internal Lithium ion 3.7V rechargeable
<b>Battery Capacity</b>	1.8 AHr, recharges in 4 hours from powered USB port or charger
<b>Run Time per charge</b>	40-50 hrs including more than 1500 scans
<b>Memory Capacity</b>	3,500 scans
<b>Display</b>	Monochrome Graphic LCD with bright backlight
<b>Indicators</b>	Red/Green LED for scan status, Amber LED for charge status
<b>Timestamp</b>	Yes - Date and Time on each scan
<b>Linear (1D) Symbologies</b>	Code 39, 128, 93, 11, 49, 2 of 5, 16K, UPC, EAN, RSS, & more
<b>Stacked (2D) Symbologies</b>	PDF417, Aztec, QR, Data Matrix, Maxicode, Postal codes & more
<b>Light Source</b>	red visible LED for illumination, green aiming bar
<b>Scan Technology</b>	CMOS VGA imager with optics & high speed decoder
<b>Memory Card Interface</b>	DataFlash type (proprietary format)
<b>User Interface for Data</b>	Thumbwheel with switch and 3 pushbuttons for functions
<b>Computer Interface</b>	BlueTooth, Standard USB and RS232
<b>Cable</b>	USB standard (included), RS232 optional
<b>Housing</b>	ABS plastic with rubber moulding
<b>Color</b>	Black with yellow scan buttons and moulding
<b>Size</b>	4.25 by 3.00 by 1.20 inches (10.8 by 7.6 by 3.0 cm)
<b>Weight</b>	7.5 oz (215 grams)
<b>Operating Temperature</b>	35 to 85 degrees Fahrenheit
<b>Operating System</b>	Windows XP, Windows 7
<b>Accessories (Optional)</b>	Portable printer, SideKick, AC adapter, Transport Case
<b>Software</b>	ExpoTools ShowMaster, Direct Access web portal
