

**ExpoTool's SideKick.  
Offer more to your  
exhibitors.**

## FEATURES

Your marketing leads are instantly available on your laptop

Communicates with scanners up to 70 feet away

Allows you to add notes and easily share data with other applications

Simple to install and run - No drivers required!

Gathers data even when the PC application is not running

Supports multiple reader connections

Supports PC HID mode for streaming scanned data directly into other applications

Supports Serial Port Emulation (requires drivers)

\*\* Wireless connection to laptop requires ExpoTools' Sidekick

++ Using ExpoTools' Direct Access

SideKick is an add-on for use with all ExpoTools portable badge readers. It provides a direct wireless link between the lead retrieval scanner and a computer or laptop. Data scanned by the reader instantly pops up on the computer or laptop screen where the exhibitor can edit it, add notes or export it to other applications. The SideKick can also be configured to stream data fields directly into an exhibitor's application running on their computer or laptop.

SideKick is the size of a standard USB memory stick and plugs into any USB port on a computer or laptop. Exhibitors simply drag the application software to their desktop and they're ready to go — no drivers required.

Multiple readers can be linked to a single SideKick receiver so that all data is collected in one file. Every lead received is tagged with the identity of the reader that scanned it so it's easy to identify who captured the lead. Data is always secure because each reader can only be linked to one SideKick device.

All lead data is stored in memory, both on the reader and on the laptop. ExpoTools' foolproof design ensures that SideKick will continue to gather all data even if the PC application is accidentally shut down. As soon as the application is restarted, the Sidekick will automatically send the stored scans to the laptop.

SideKick is compatible with all ExpoTools equipment and software.

# Specifications

## SideKick

## Direct To Laptop Solution

<b>Receive Range</b>	50 - 70 feet typical - depends on environment and usage
<b>Memory Capacity (internal)</b>	8,000 scans
<b>Indicators</b>	Bicolor: Green - receiving data; Red - sending data to PC
<b>Timestamp</b>	Yes - Date and Time on each scan
<b>Output Data File Type</b>	Standard CSV (comma separated values)
<b>Output Data Compatability</b>	Suitable for use with Excel, Word, ACT, Goldmine, others
<b>Computer Interface</b>	Standard USB
<b>Computer Data Interface</b>	USB HID, USB serial port emulation (requires drivers)
<b>Operating Temperature</b>	35 to 85 degrees Fahrenheit
<b>Housing / Color</b>	ABS plastic / Black
<b>Size</b>	1.75 by 0.75 by 0.40 inches (45 by 19 by 10 mm)
<b>Weight</b>	0.7 oz (18 grams)
<b>Operating System</b>	Windows XP, Windows 7
<b>Software</b>	SideKick Desktop application (included)
